

There's no probability here...

Data Centre, Cloud and Managed Services targeted to the unique needs of online gaming operators.

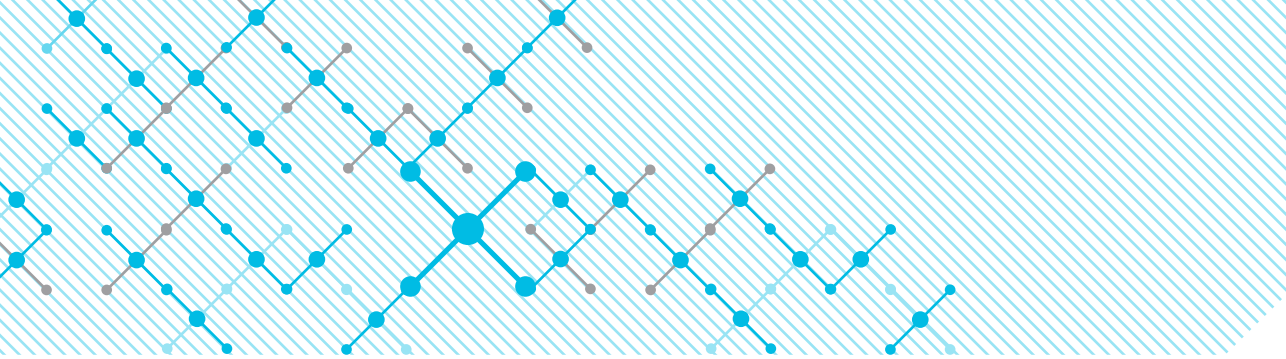

At BMIT we understand that, as a gaming industry partner, you need a technology services provider that understands your sector. And we do.

We offer a full range of Data Centre, Cloud and Managed Services that are tailored to the needs of the iGaming industry.

With over 10 years experience in the field, we are proud to be a leading European data centre for online operators, offering a range of specialised services for the iGaming industry.

It is this unrivalled reputation that has secured us the custom of some of the largest and most-innovative gaming operators in the industry, as well as the business of some truly dynamic start-ups. We strive to offer a customisable package that will hit the right note for your requirements, with hybrid solutions that encompass Data Centre, Cloud and Managed Services.

We understand that the one-size-fits-all approach doesn't work. So our team will liaise closely with you to find a solution that does suit perfectly.

Our services include:

- A selection of Data Centre Solutions, supported by a suite of Managed Services
- Public, Private and Hybrid Cloud services, solutions and set-ups
- Easy and secure ways to access storage and applications, create back-ups and benefit from industry-specific solutions
- Access to data centres in Malta and in cities across Europe, with further connectivity through leading pan-European network operators
- A choice of single or multi-site set-ups
- Availability of a range of services at each data centre
- One single bill, if required
- A comprehensive solution that handles all contacts, preparations and support required, irrespective of location
- Optional disaster recovery functionality, away from our main site.

These services are all supported by a dedicated, expert team of specialists. They boast a range of technical knowledge and key individual certifications so as to deliver the best flexible and practical solutions for you.

At BMIT our data centres are equipped with the latest infrastructure to ensure we always offer the most cutting-edge facilities possible. Our experience and resources guarantee we deliver a high level of quality standards, and we are proudly **ISO 27001** and **PCI DSS** certified.

Meanwhile, our extensive background in the industry has given us a developed understanding of the operational needs, legal requirements and gaming regulations associated with the online gaming sector.

So why not trust BMIT with all the Data Centre, Cloud and Managed Services you require for the success of your iGaming business? Contact our sales team directly on sales@bmit.com.mt or visit www.bmit.com.mt.
